

Job Title: Supply Planner

Req ID **119375** - Posted **11/09/2018** - **United States** - **Under Armour, Inc. (1001)** - **Maryland** - **Corporate** - **Operations (0025)** - **Full Time** - **Baltimore**

Under Armour strives to promote from within whenever possible. To be considered for this opportunity, you must have been in your current position a minimum of 12 months, not currently on disciplinary probation, and meet the minimum qualifications for this role. Additionally, please ensure that you have received your current supervisor's approval and notified your HRBP if applying for a position outside of your current department.

Under Armour is looking for a Supply Planner to support the business and drive operational excellence / business performance. The Supply Planner will contribute to the inventory management and fill rate results for the core Under Armour business. This individual will work cross functionally with Sourcing and Demand Planning to optimize Open to Buy and Inventory Management. To be successful, the Supply Planner will be required to easily move between detailed tactical analysis, and cross-functional collaboration.

Essential Duties and Responsibilities

What will I do at UA?

- Plan supplier production resources and issue buys to suppliers using the Logility Supply Planning System and Business Objects reporting.
- Understand how the business flows and how demand translates into our Open to Buy process
- Develop an understanding of all systems, reporting and tracking tools
- Understand the calendar process as it relates to our purchasing process, vendor projections, capacity planning and buy readiness
- Leverage a strong partnership with Supply Planning leadership
- Work and identify projects that result in lower inventory levels.
- Document process flows and timelines for key activities and projects.
- Identify and evaluate key supply issues for the company and develop appropriate alternative solutions to meet KPI goals and provide information to make these decisions.
- Support the transition process and new product launches ensuring delivery of fill rate and minimizing excess inventory.

What does UA need from me?

Experience/Qualifications:

- Passion, desire, integrity
- 2 year of experience in Supply Chain / Operations preferred
- Bachelor's Degree in Operations Management, Supply Chain, Engineering or similar field
- Understanding of advanced planning systems, preferably experience using Logility & SAP related inventory planning tools
- Understanding of Business Warehouse / Object Reporting
- Proven experience in presenting to all levels of supply chain, including leadership
- Experienced user of level Microsoft Excel (**proficient using excel pivot tables**) and Database Reporting skills are required
- Competent and knowledgeable in utilizing best practices in inventory management or other Supply Chain organization experience is desired
- Analytical - Synthesizes complex or diverse information; Collects and researches data; Uses intuition and experience to complement data; Designs work flows and procedures
- Attention to detail and hitting timelines
- Ability to identify and evaluate key supply issues for the company and develop appropriate alternative solutions to meet KPI goals and provide information to make these decisions.
- Problem Solving - Identifies and resolves problems in a timely manner; Gathers and analyzes information skillfully; Develops alternative solutions; Works well in group problem solving situations; Uses reason even when dealing with emotional topics
